

# CAPABILITY STATEMENT

SECURITY OPERATIONS GROUP  
INTERNATIONAL

## CORE COMPETENCIES

**Security Operations Group International, LLC** is a highly effective team comprised of subject matter experts providing strategic solutions for the following:

**Construction Services Division** provides our clients with innovative management and execution for many critical needs items, including but not limited to on site power generation, HVAC with chiller systems, fuel supply and consumable items (cooking fuels, bedding, shelters, paper products... etc.) as well as on demand temporary or semi-permanent housing services. Further we support a broad spectrum of expeditionary and life support services, via installation, and coordination of utilities and infrastructure for contingency or disaster related support as well as the follow-on re-construction.

Our highly dedicated logistics team brings unparalleled support, leadership and experience to developing proven solutions, ensuring that our clients receive what is promised in a timely, well executed manner.

**Our Technical Security Division** in compliance with the ICD 705 Tech Specifications, SOG-I provides planning, designing, constructing/installing, evaluating, accrediting and maintaining the physical security level of an accredited construction for Access Control Facility (ACF), Fiber Installation, HVAC Systems, Tempest Design with installation, Installing Ballistic Doors/Windows, Fire & Alarm/Sprinkler Systems, Access Security Systems, Security Secure Area (SSA), and Sensitive Compartmented Information Facility (SCIF).

**Our Training Division** offers rapid response via a customized solution for the situation at hand. Our services include but are not limited to: Implementing Threat Security Assessments, Conducting Professional and Management development training for Federal /State/ Local Enforcement personnel, including Security Detail (Armed Guards /Patrol) Services, Electronic / Counter - Surveillance, (ELINT & SIGINT), Target Tracking, IED recognition, Escape and Evasion, UXO Risk Assessment and Abatement, Ammunition Support, Tactical Weapons Training and Other Military, Law Enforcement specialized training. Polygraph examinations for the following purposes, State, and Local employees requiring pre-employment, periodical, or security clearances.

**Our Cyber Security Division** constructs and deploys information resources standards, destruction/shredding of secure documents, secured (barcoding) inventory, frameworks, tools and technologies enabling seamless and secure interactions among homeland security stakeholders. With its wide range of partnerships across federal agencies; state and municipal administrations and first responders such, as critical infrastructure sectors; Internet security researchers; universities; national laboratories and international organizations. Member of the National Association for Information Destruction (NAID).

## PAST PERFORMANCE

Management and Project Staff account for more than 150 combined years of service within our industry. SOG-I staff has successfully completed projects worldwide in approximately 25 countries.
